 Roberto Ridolfi
 Chair of the Executive Committee
 EU-Africa Infrastructure Trust Fund

¹ The ExCom members approved this grant operation with four conditions:

1. AfDB should clarify in writing how good coordination is ensured between the two organisations EAPP and NELSAP
2. AfDB should provide evidence that the key regional actors (ECGL, EAC, etc.) are duly informed of the project. In particular, AfDB should meet and inform the Tanzania and Burundi Delegations so that they can incorporate the project in their dialogue with the regional actors.
3. Timing of procurement: AfDB should send in writing the timeline for the procurement of the studies.
4. Visibility: in the movie AfDB is planning, AfDB should foresee 2.5 minutes focusing on the EU contribution to this project. As for other projects, related tenders should be published on the EuropAid website
